OUR ETHOS

Grupo Educativo del Valle

Inspired by the visionary and entrepreneurial spirit of our founders, we are a group of private educational institutions that act in accordance with the principles of ethics and excellence. Our group is non-profit and is separate from ideological, political, or religious activism.

Based on our values and through collaboration, we offer quality student-centered education. We focus on their integral development, fostering individual freedom and a service leadership that allows them to transcend.

We prepare our students to overcome the challenges of a changing world. We seek to have an impact on society and contribute to prosperity and sustainable development.

TO THE COMMUNITY MEMBERS OF THE GRUPO EDUCATIVO DEL VALLE

We express our firm commitment to consolidate the role of the Educational Group of the Valley as the set of educational institutions of reference, committed to acting with the highest ethical standards, in the permanent pursuit of excellence and the development of Guatemalan society.

We express our purpose of offering quality education as a basis for improving people's lives and achieving sustainable development.

We share this Code of Ethics, which reflects the declaration of values and defines the rights and obligations of all members of the group, as a guide that contributes to the transparency of our actions and to facing ethical dilemmas that may arise.

Within a framework of **Ethics and Excellence** as transversal axes, six values are declared that underpin the vision towards which we are heading as the Grupo Educativo Del Valle and provide guidelines for strategic planning in our institutions.

The purpose of this Code is to inspire all members of the Grupo Educativo Del Valle to always do what is right and to establish basic standards of behavior for their personal and professional lives. It is important to know, reflect on, and disseminate its content, but, especially, to commit to living it, which is key to our success and our ability to achieve our strategic vision.
